**Declaration that MB PUReactive TX complies with the European Model Environmental Product Declaration
Modified mineral mortars, group 3 – EPD-DBC-20220219-IBF1-EN**

Dear customer,

Remmers GmbH is a member of Deutsche Bauchemie e.V. which has developed European Model EPDs for modified mineral mortars. These Model EPDs were verified by the independent institute IBU (Institut Bauen und Umwelt); Germany's EPD program holder organisation.

The European Model EPDs have been published on the website of Deutsche Bauchemie (<https://muster-epd.deutsche-bauchemie.de>), and also on the websites of the IBU and ECO (Platform of the European EPD Programme Operators) and can be downloaded there.

As a member of Deutsche Bauchemie, and with the help of an internal members' guidance paper, Remmers GmbH is entitled to determine the compatibility of its product with the European Model EPD.

By means of this declaration, we confirm that we have verified the conformity of MB PUReactive TX with the European Model EPD for "Modified mineral mortars, group 3" according to the guidance developed for this purpose. This means that the LCA data and the other content of the attached Model EPD apply to the above-mentioned product and can be used for the assessment of buildings.

Please do not hesitate to contact us if you require any further information.

Best Regards
Remmers GmbH
