

Aqua FKL-402 Joint Filler Liquid

Water-based joint filler liquid for parquet and wooden flooring

Constituents

VOC content

< 15 g/l

[nachhaltigkeit_voc_gehalt_ch]

1%

Biocidal agents

Contains pot preservatives based on the biocidal active ingredients BIT (<0.018%) and CMIT/MIT (3:1) (<0.0011%) to protect the container contents from microbial infestation

SVHC as per Regulation 1907/2006/EC ("REACH")

Does not contain (<0.1%)

Heavy metals pursuant to VdL Guideline 01

Not contained as constitutive ingredients

GISCODE

BSW20

Building certificates

Suitability as per DGNB Criterion ENV 1.2 - "Local environmental impact"

Nr.	Place of use	Product type	QS1	QS2	QS3	QS4
1	Coatings on non-mineral substrates: metal, wood, plastic	This means decorative liquid coating materials: Paints/varnishes with base coats. This does not include special-effect coatings (e.g. metallic varnishes)	Yes	Yes	Yes	No

Suitability as per BNB Criterion

No.	Construction product group	Construction product type	QN1	QN2	QN3	QN4	QN5
3a	Surface coatings processed on site and surface coatings prepared at the factory, as long as there is no indication under the German Federal Immissions Law or the Technical Instruction on Air Quality Control	Paints, varnishes, stains including base coats (as per Decopaint Directive Cat. D + E + F) Areas of application: Coatings on non-mineral interior and exterior surfaces: metal, wood, plastic	Yes	Yes	Yes	Yes	No

[nachhaltigkeit_qng_kriterium]

[LANG_POS]	Construction product group	Construction product type	QNG
6.1	Coatings on non-mineral substrates: metal, wood, plastic	This means decorative liquid coating materials: Paints/varnishes with base coats	Yes
