

Induline DW-610

Water-based, insulating low-build varnish for use as primer, intermediate and finishing coat

Constituents

VOC content

< 40 g/l

[nachhaltigkeit_voc_gehalt_ch]

1.1%

Biocidal agents

Contains in-can preservatives based on the biocidal active ingredients BIT (<0.0026), CMIT/MIT (3:1) (< 0.000005 %), MIT (<0.000025%) and Bronopol (<0.00003)

Contains a film preserver based on the biocidal active ingredient IPBC (< 0.35 %) to protect the film from microbial infestation.

SVHC as per Regulation 1907/2006/EC ("REACH")

Does not contain (<0.1%)

Heavy metals pursuant to VdL Guideline 01

Free from heavy metals

GISCODE

BSW50

Eco-labels, certificates, declarations

Declaration in accordance with VdL-RL 01

Product group: opaque wood lacquer

Constituents: acrylate, titanium dioxide, carbon black, iron oxide pigments, aluminium hydroxide, glycols, wetting agent, defoaming agent (anti-foaming agent), anti-settling agent, IPBC (3-iodo-2-propynyl butylcarbamate), MIT (methylisothiazolinone), BIT (benzisothiazolinone), CMIT/MIT (methylchloroisothiazolinone/methylisothiazolinone) (3:1).
