

Foam Cleaner

Organic solvent mixture for removing fresh PU foam and adhesive residues

Availability	
Quantity per pallet	624
Size / Quantity	12 x 500 ml
Container code	84
Art. no.	
1099	■

Application rate

Depending on contamination and foam quantity

Apply to a large enough trial area to determine the precise amount required.

Range of use

- Removing fresh residues of foam and adhesive
- Cleaning guns, nozzles, valves & tools

Property profile

- Quick, thorough removal of fresh PU foam and adhesive residues

Characteristic data of the product

Consistency	Thin liquid
Colour	Transparent

The values stated represent typical characteristic data of the product and are not to be understood as binding product specifications.

Preparation

- Substrate preparation
Position NBS gun.

Directions

- Conditions for use
Temperature of the material, air and substrate: from min. +5 °C to max. +25 °C.

Use the material according to the applicable regulations.

Tips on use

Always use immediately while the foam is wet, because hardened foam can only be removed mechanically.

- Drying
Flash-off time: approx. 5 minutes (+20 °C)

Notes

The applicable regulations and legal requirements must be observed.
The relevant test certificates must be observed when planning and carrying out work.
The solvents contained in the foam cleaner may attack varnishes, paints and plastics.
Always set up a trial area/trial areas first.
Use only outdoors or in a well-ventilated area.
Do not heat can to above +50 °C.

Storage / Shelf life

If stored unopened in its original container in a cool, dry place and protected against frost, the product will keep for at least 12 months.

Safety data / Regulations

For further information on the safety aspects of transporting, storing and handling the product and on disposal and environmental matters, please see the current Safety Data Sheet.

Disposal

Larger quantities of leftover product should be disposed of in the original containers in accordance with the applicable regulations. Completely empty, clean containers should be recycled. Do not dispose of together with household waste. Do not allow to enter the sewage system. Do not empty into drains.

Detergents Regulation (EC) No 648/2004

≥30% aliphatic hydrocarbons

Please note that the data and information given above have been calculated as guidelines in the laboratory and from real-life experience and are therefore not binding as a basic principle.

This information is therefore of a general nature only and describes our products and how they are used and worked with. In this respect, it must be borne in mind that the varied and diverse nature of the

prevailing working conditions, materials used and construction sites encountered means that not every individual case can be covered. In this respect, we therefore recommend either conducting tests or liaising with us in the event of any doubt. Unless we have provided express written assurance of the products' specific suitability or characteristics in respect of a contractually stipulated intended use, any technical application-related advice or instruction will never

be binding, even though it is provided to the best of our knowledge. In all other respects, our general terms and conditions of sale and delivery shall apply.

When a new version of this Technical Data Sheet is published, it shall replace the previous version.
