

	<p>Brush any recesses using the special brush for decking grooves. Re-spray and re-brush as required. If necessary, particularly stubborn coating residues can be removed using a metallic scraper when wet. Hose down the wood thoroughly. Keep rinsing until no more foam forms. It may help to use a coarse broom to sweep away residual water. Assess the cleaned surface once it has dried and repeat the cleaning process if needed. Where necessary, we recommend using Wood Revitalizer. Seal opened containers well and use contents as soon as possible.</p>
Tips on use	<p>Always set up a trial area/trial areas first. Keep the treated area damp during this time. Rinse treated areas with plenty of water. Do not let any rinsing water get into bodies of water. If necessary, use tarpaulins or sheeting to protect against the product coming into direct contact with any adjacent crops, plants or building elements. After leaving to dry for 1-2 days, re-treat using garden wood oils, maintenance oils or WPC impregnating oils.</p>
Tools / Cleaning	<p>Special scrubbing brush, paintbrush with acrylic bristles, flat brush</p> 
	<p>Clean tools immediately after use with water and detergent. Ensure that any residue from cleaning is disposed of correctly.</p>
Storage / Shelf life	<p>If stored unopened in its original container in a cool, dry place and protected against frost, the product will keep for at least 12 months. Use the contents of open containers as quickly as possible.</p> 
Safety data / Regulations	<p>For further information on the safety aspects of transporting, storing and handling the product and on disposal and environmental matters, please see the current Safety Data Sheet.</p>
Disposal	<p>Larger quantities of leftover product should be disposed of in the original containers in accordance with the applicable regulations. Completely empty, clean containers should be recycled. Do not dispose of together with household waste. Do not allow to enter the sewage system. Do not empty into drains.</p>
Biocidal Products Regulation	<p>*Use biocidal products carefully. Always read the label and product information before use.</p>
Detergents Regulation (EC) No 648/2004	<p>15 - 30 % butyl glycol; < 5 % phosphate</p>

Please note that the data and information given above have been calculated as guidelines in the laboratory and from real-life experience and are therefore not binding as a basic principle.

This information is therefore of a general nature only and describes our products and how they are used and worked with. In this respect, it must be borne in mind that the varied and diverse nature of the

prevailing working conditions, materials used and construction sites encountered means that not every individual case can be covered. In this respect, we therefore recommend either conducting tests or liaising with us in the event of any doubt. Unless we have provided express written assurance of the products' specific suitability or characteristics in respect of a contractually stipulated intended use, any technical application-related advice or instruction will never

be binding, even though it is provided to the best of our knowledge. In all other respects, our general terms and conditions of sale and delivery shall apply.

When a new version of this Technical Data Sheet is published, it shall replace the previous version.
