

# Remmers Conduction Kit

Kit for 10 earthing points

Availability	
Size / Quantity	1 pcs
Type of container	Box
Container code	01
<b>Art. no.</b>	
4933	■

## Application rate

The total number of connection points depends on:  
- the size and geometry of the surface  
- the max. spacing between copper strands  
Figure based on experience: 2 earthing points per 100 m<sup>2</sup>

## Range of use

- For the discharging of electrostatic charges in flooring.
- Kit for creating 10 connection points.

## Property profile

- Conduction kit consists of: 10 dowels S8 x 40 10 hexagon nuts M6 10 self-locking hexagon nuts M6 10 washers Ø 55 mm 10 washers Ø 30 mm 10 hexagon socket screws M6 10 cable lugs 20 self-adhesive copper strands 1 Allen key 1 SDS drill bit Ø 8 mm

## Certificates

## Tips on use

Always observe the specific requirements of the floor covering and the technical requirements. The connection point must be in the immediate vicinity of the earthing connection and near to the wall. The position of the connection points must always be discussed in advance with a qualified electrician. At least two connection points must be created.  
Surfaces separated by a joint must be earthed separately.

## Notes

For further information on using the Remmers Conduction Kit, please see the enclosed instructions for use.

Please note that the data and information given above have been calculated as guidelines in the laboratory and from real-life experience and are therefore not binding as a basic principle.

This information is therefore of a general nature only and describes our products and how they are used and worked with. In this respect, it must be borne in mind that the varied and diverse nature of the

prevailing working conditions, materials used and construction sites encountered means that not every individual case can be covered. In this respect, we therefore recommend either conducting tests or liaising with us in the event of any doubt. Unless we have provided express written assurance of the products' specific suitability or characteristics in respect of a contractually stipulated intended use, any technical application-related advice or instruction will never

be binding, even though it is provided to the best of our knowledge. In all other respects, our general terms and conditions of sale and delivery shall apply.

When a new version of this Technical Data Sheet is published, it shall replace the previous version.
